

New Product Bulletin

GenThree TVS2300 Supercharger
Callaway Factory-Built
3 Year/36,000 Mile Warranty

Callaway Corvette Z06 SC757

With 757 horsepower, the limited production Callaway Corvette Z06 SC757 delivers more power than any previous Callaway Corvette. The new GenThree TVS2300 supercharger (pat. pend.) replaces the Z06's stock 1740cc unit, adding 32% more rotor pack displacement. Plus, extending the supercharger through the hood improves manifold geometry, allows for longer, tuned intake runners for increased torque, and provides convective charge air cooling. A unique triple-element intercooling system maintains virtually ambient inlet air temperatures, preventing heat-related power loss.

Armed with flawless drivability and bulletproof durability, Callaway's 3 Year/36,000 Mile Limited Warranty overlaps the factory GM warranties, ensuring that Callaway Corvettes are not "blocked" for service by GM dealerships nationwide.

Optional equipment includes an Extended Powertrain Service Contract, ShortThrow Shifter, Callaway Sport Exhaust with Double-D Tips, Embroidered Car Cover, and National Corvette Museum Delivery.

Callaway Corvettes are built by expert craftsmen in our Connecticut and California factories. Available on new car orders, or for recent purchasers.
