- administered by any authorized Chevrolet dealer
- increases your Callaway's value, transferable to second owners
- \$0 deductible

Callaway Extended Powertrain Service Contract

Callaway Corvette, SportTruck, Camaro

The best powertrain protection offered for any specialty automobile is available for your new or pre-owned Callaway car or truck.

The Callaway Extended Powertrain Service Contract provides extra long term security and value for your Callaway. Your investment in this program extends the term of your Callaway powertrain coverage from 3 years/36,000 miles to 5 years/60,000 miles - concurrent with the term of the factory GM 5 year/60,000 mile powertrain warranty.

Callaway Extended Powertrain Service Contract-covered repairs may be performed by any authorized Chevrolet dealer, just as with Callaway's standard 3 year/36,000 mile warranty. GM does not void or "block" the factory warranty on cars and trucks with supercharged Callaway packages. Callaway engineers work with your local dealership, providing service-proven diagnostic procedures and repair support to GM service department personnel and, if required, supplying replacement parts from Callaway facilities. If necessary, Callaway will send factory personnel to dealers to properly address any problem.

For complete Callaway Extended Powertrain Service Contract terms and conditions, contact Callaway Cars at 860 434 9002.
